PACE IFMS (Integrated Finance Management System) is a state-of-the-art productized solution tailor made to meet the requirements of the Finance Departments of Indian State Governments. This product is the outcome of CMC’s long-term commitment to e-Governance and its foresight in envisaging the need of having a Centralized Finance Management System in place for the State Finance Departments.

CMC leverages PACE IFMS to deliver a complete end to end solution for State Governments, to implement best in class model for increasing value and transparency in matters of public finance by ensuring that an input-output and outcome linked model is delivered. The focus is on outcomes of the program rather than just activities or system outputs.

With its Systems Integration Practice and eGovernance Industry Practice, the multiple disciplines involved in large Mission Mode project implementations, like IFMS, are made successful by leveraging multi-disciplinary skills and coordinated program value management.
CMC’s Expertise in iFMS

CMC’s extensive domain expertise brings in benefits of information technology to iFMS. CMC is involved in developing and implementing cost-effective and industry standard solutions related to different parts of iFMS in different states since 1998. It maintains its position as an industry leader maximizing customer satisfaction through enhanced productivity.

- Mobile Application.
- Asset Management System.
- Document Management & Workflow Services
- Business Intelligence & Data Warehouse
- Data Migration Services
- Platform Migration Services
- Third Party Testing Services
- Project Management Service
- Support Maintenance Service
- Training Service
- Roll out & Implementation Service
- Call Centre & Help Desk Services
- Bug tracking and Monitoring System.
Key Differentiators

› Use of Service Oriented Architecture
› Use of content management & Portal technology.
› Fully web based solution.
› Maintaining row level audit trail.
› Integrated with Data warehouse and BI
› Functionality tested using Watir, HP UFT 11.50
› Load tested using HP Loadrunner
› Security Tested using IBM Rational AppScan
› Audited by STOC, APPIN and AG audit team.
› Proven by running in different states for last few years.
› Incorporation of digital signature.
› On time and event driven customized SMS & email facility.
› Single Sign On and Single Sign Out Facility
› Integrated with LDAP for user management.
› Plug and Play module implementation.
› Browser Independent
› Readily Available for POC
IMarket Presence
